Keynote Speakers

The Heads of the International Relations Offices of the higher education institutions listed below will participate as keynote speakers in the Erasmus+ Blended Intensive Programme entitled “Intercultural Awareness & Communication in the Workplace.”

Within the scope of the programme, the speakers will share their professional experience in the field of internationalisation, with a particular focus on working with international students, managing multicultural academic environments, and fostering effective intercultural communication in higher education institutions. Their presentations will provide valuable insights into best practices, institutional approaches, and practical challenges encountered in diverse workplace and learning settings, thereby contributing significantly to the academic and practical outcomes of the programme.

Excursion

Balıca Cave

Balıca Cave Nature Park (Balıca Mağarası Tabiat Parkı) is a natural heritage site that was listed in the UNESCO World Heritage Tentative List in 2019. It is 7 kilometers south of Tokat Pazar district center. Balıca Cave, whose age is determined as 3.4 million years, has a special position among its peers in the world. The entrance to the cave on the slope of a semi-rocky hill is provided by a partially smoothed bedrock block. The most important characteristic of the cave, whose walkable part is 94 meters high, is that it has "onion stalactite" formations. Another important feature of the cave is the presence of dwarf bats living in colonies.
